

ref. 53574

208-PIECE TIP KIT

Function

A screwdriver normally consists of three distinct parts: handle, shank and tip. The tip is the part that is inserted into the screw. Depending on the type of screw, a different type of head will be used, which varies according to the need. The 208-piece set of tips is packed in a handy plastic box.

Advantages

- ✓ Convenient carrying and storage case
- ✓ Adapter included
- ✓ Chrome-plated steel
