# AIR-OPERATED ASPIRATORS FOR EXHAUSTED OIL

#### Art. 040-1424-000

### Air-operated exhausted oil aspirator 65 l

Tank capacity 65 I with level indicator Abs tool holder basin with 3 sections Pneumatic air emptying of tank (max pressure 0,5 bar) Equipped with 10 standard probes (Art.044-1479-000)

040-1424-000

## Art. 040-1425-000

### Air-operated exhausted oil aspirator 90 I

Tank capacity 90 I with level indicator Abs tool holder basin with 3 sections Pneumatic air emptying (max pressure 0,5 bar) Equipped with 10 standard probes (Art.044-1479-000)

After depressurization they work autonomously, without the need to be connected to compressed air, for an independent and quick aspiration, using the suitable probe between the included kit of 10 probes. The units can suction till 2/3 of their capacity.

Change the oil at a temperature of 60°-80°C (when the engine is just switched off).

Warning: do not use these units for the suction of brake oils, fuels and inflammable liquids
