## GRIP BITS 458 E: ALSO EFFECTIVE ON EXTREMELY DAMAGED SCREWS

### EXCLUSIVE PROFILE

The special design of the grip bits allows you to grip the hexagons recessed in any condition: intact or completely damaged.

### DAMAGED SCREWS

When a screw with a hexagon socket-head is damaged, it is no more possible to unscrew it with normal hexagonal male keys. The new 458 E grip bits allow to unscrew even screws extremely damaged, up to 98% of the hexagonal profile.
